

Construction Container Security Checklist

A ten-minute closeout for tools and high-value equipment.

PROJECT _____

DATE _____

SITE LEAD _____

CONTAINER ID _____

RECOVER

☐	Last tool-return call completed
☐	Active floors, gang boxes and work vehicles swept
☐	Signed-out high-value tools reconciled
☐	Missing or damaged equipment escalated before crew departure

STORE

☐	High-value portable tools placed in controlled zone
☐	Batteries stored per manufacturer instructions
☐	Heavy items low and stable
☐	Center aisle and door area clear
☐	Wet materials isolated from dry tools

SECURE

☐	Passive door closed first and cams fully seated
☐	Active door closed and lockbox secured
☐	Keys or codes returned to controlled owner
☐	Ladders and objects that enable roof access removed

VERIFY

☐	Locked doors photographed in approved system
☐	Door approach and faces visible on camera
☐	Lighting works without camera glare
☐	Closer, time and exceptions recorded

FIELD NOTE

Assign one closeout owner and one backup. Shared responsibility without a named closer is a common point of failure.
