

FIELD CHECKLIST

Farm & Ranch Operations and Inspection Pack

Opening, loading, inspection and closeout routines with named ownership.

THE VERIFICATION GATES

01

Product label

Controls pesticide, fertilizer, medicine and other labeled-product storage.

02

Site and carrier

Confirm ground, access, unload method, utilities and final orientation.

03

Local authority

Confirms permits, setbacks, fire access and environmental rules.

04

Qualified design

Controls structural cuts, foundations, electrical work and occupied use.

Planning resource only. Verify the exact container, contents, delivery route, site and current requirements before purchase, loading, modification or use.

Assign the owner. Mark the exception. Record the correction.

A checked box is useful only when the exact site and current condition have been inspected by the person responsible.

01 | Permits and setbacks

Ask the local authority and property decision-maker about duration, setbacks, screening, foundation, utilities and intended contents before delivery.

☐	Write the intended contents and retrieval frequency.
☐	Measure the exact unit, contents and access route.
☐	Confirm property, carrier and local requirements.
☐	Record the responsible owner and inspection routine.

02 | Fire access

Confirm clearances and fire access with the authority having jurisdiction, especially when contents or nearby structures increase fire load.

☐	Write the intended contents and retrieval frequency.
☐	Measure the exact unit, contents and access route.
☐	Confirm property, carrier and local requirements.
☐	Record the responsible owner and inspection routine.

03 | Insurance and inventory

Ask the insurer how the container and contents are covered, photograph serials and high-value items, and keep the inventory record somewhere else.

☐	Write the intended contents and retrieval frequency.
☐	Measure the exact unit, contents and access route.
☐	Confirm property, carrier and local requirements.
☐	Record the responsible owner and inspection routine.

04 | Modification safety

Use qualified professionals, verify permits and preserve structural, fire, ventilation and egress requirements for the intended use.

	Write the intended contents and retrieval frequency.
	Measure the exact unit, contents and access route.
	Confirm property, carrier and local requirements.
	Record the responsible owner and inspection routine.

05 | Daily retrieval zones

Put daily items nearest safe access, reserve the rear for controlled or infrequent stock and keep a marked clear aisle.

	Write the intended contents and retrieval frequency.
	Measure the exact unit, contents and access route.
	Confirm property, carrier and local requirements.
	Record the responsible owner and inspection routine.

06 | Weekly inspection

Use a named owner and a short repeatable checklist for roof, seals, floor, supports, drainage, locks, contents and housekeeping.

	Write the intended contents and retrieval frequency.
	Measure the exact unit, contents and access route.
	Confirm property, carrier and local requirements.
	Record the responsible owner and inspection routine.

07 | Multi-container layout

Lay out the full yard with measured routes, working aisles and future deliveries, then confirm it with the carrier and local decision-makers.

	Write the intended contents and retrieval frequency.
	Measure the exact unit, contents and access route.
	Confirm property, carrier and local requirements.
	Record the responsible owner and inspection routine.

08 | Move and resale

Use a qualified carrier, disclose modifications and contents, and never assume a unit can be moved loaded without a specific transport plan.

	Write the intended contents and retrieval frequency.
	Measure the exact unit, contents and access route.
	Confirm property, carrier and local requirements.
	Record the responsible owner and inspection routine.

Do not close an inspection without an owner and date.

DATE	LOCATION / UNIT	EXCEPTION	OWNER	CLOSED

PRIMARY REFERENCES AND LIMITS

Traceable boundaries, not borrowed certainty.

Use the current version of every source and confirm the exact rule with the authority or qualified party that controls the decision.
